## **BRAHMAN AND F-1 SALE**

# **Deep South**

## Dear Brahman Breeders:

I am extremely honored to invite you to the 2022 Deep South Brahman Association Brahman & F-1 Sale. The Sale Committee and I have worked very hard to put together an outstanding lineup of cattle. This sale offers something for everyone. This year's offering was again assembled with a focus on quality and diversity. As you read through this catalog, you will quickly realize that the consignments represent elite genetics from some of the premier breeders in the U.S. Beef Industry.

The value in Brahman & F-1 cattle is being realized in expanded areas due to their efficiency and adaptability. Due to this it is expected that the breed will expand especially for superior seedstock. As you view this offering consider which animals might enhance your program. I am extremely proud of this offering, have hand picked many of the lots, and know that they will work!

Although, this event provides an opportunity for members to buy and sell cattle it also serves as a great time to fellowship and meet with other breeders. We hope that you are able to attend the dinner on Friday night at 6:00 PM. We will have donuts & coffee on Saturday morning and then a complimentary lunch prior to the sale. Plan to be with us for what will be a great time!

If you are unable to attend the sale you can watch it online and bid through Cattle in Motion, [www.cattleinmotion.com](http://www.cattleinmotion.com)). If you have any questions feel free to give myself or the consignors listed in the catalog a call.

Regards,

*Chris Shivers*

Proven Genetics! The scholars of the breed will realize the value in this pedigree for several reasons. For starters some of the most proven genetics in the breed are included with the International Champion and widely used sire +Mr. V8 901/4, +Mr. V8 380/6 who sired more winners than any other sire ranking him as the #1 Register of Renown Sire, and +Ms. SS 230 who was a Reserve International Champion and proven dam. You have to also appreciate the maternal genetics in this pedigree. Lastly, it is open enough to be mated to many of today's popular sires. It should not be overlooked that Miss WCC 5 has a performance profile that charts positive for BW, WW, YW, and Ribeye Area making her even more valuable.

You saw the flushmate to Miss WCC 7 in lot 1. It is hard to select between the two heifers as they offer many of the same attributes. One thing that was not pointed out in the description of lot 1 is the superior fertility and producing power in the dam of this mating, CT Lady Emperor 380. In October 2020 she had 12 embryo offspring born from 3 different sires. We don't have to sell this lot to you as the "proof is in the pudding". Don't miss this proven opportunity!

You read it right! You have the opportunity to purchase a J.D. Hudgins, Inc. branded heifer. You might be wondering what the back story is. It's easy! Sandglass Ranch bought a group of cows from J.D. Hudgins-Forgason Cattle Company. The two heifers in this sale were already branded. Sandglass thought so much of their sire that they bought him. They kept the dams and to showcase their herd bull are offering two of his daughters. The dam to 572/1 is a daughter of the many time champion JDH Mr. Manso 779/4 and out of +JDH Lady Manso 730 who was a former champion and now a proven donor as confirmed by her reaching the Register of Renown. It should be noted that 383/1 has calved twice before her 4th birthday. We love the eye appeal of this heifer and combined with her proven pedigree she should be a cornerstone female!
